

34045**MAGNET-TRANSITTING BLOCK SET****APPLICATION:**

Useful as auxilian tool by applying it to magnetic chuck for attracting round bar flank of plate and other works hard to hold shapes, which cannot be held by a chuck alone.

- The chuck block has no magnetism, but it attracts the work by using it together with a magnetic chuck. Magnetism is induced to 3 faces; upper, side and the V-shaped faces.
- You can use your chuck more efficiently with these chuck blocks, especially for attracting the work with special shape.
