

34038**MOTOR ROTARY MAGNETIC CHUCK**• **MR200**

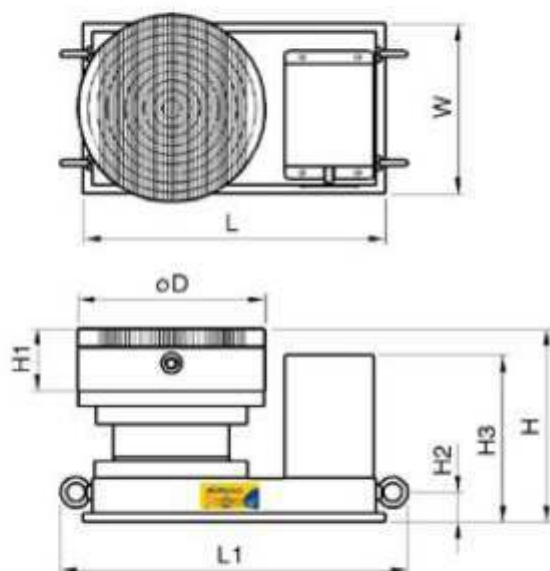

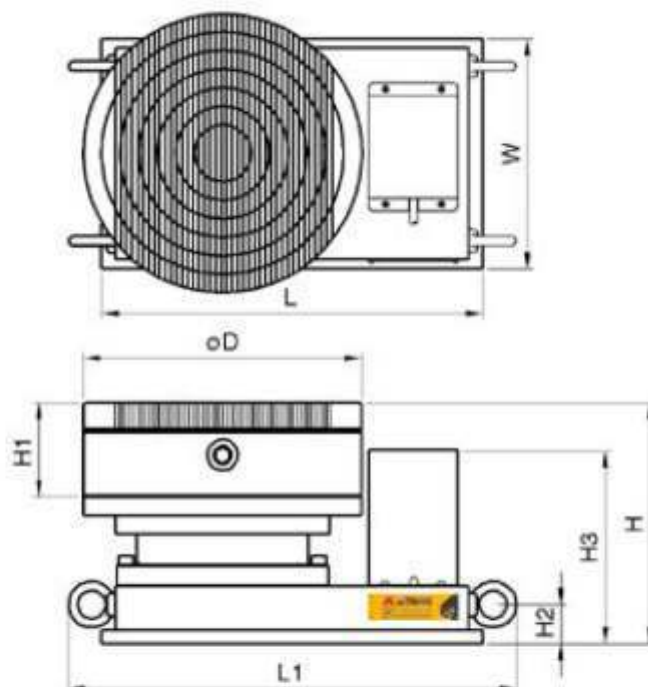

- Motor rotary magnetic chuck suit for set on plane grinding machine to use
- Using with the revolve grinding type that precision is higher More than additional grinding type, it can add multiple effects
- Grind interval ring , round spacer... etc , it is fast and higher efficiency
- Grinding precision is very high , within in 0.001mm
- It can continuous to change revolving fast of the magnetic chuck in any time
- It can change other magnetic chucks or mold set
- Step-less speed-change: 0-180 R.P.M /min

• **MAJOR APPLICATIONS :****Special attachment:**

- Add wheel attachment can dress diamond wheel and CBN diamond

**34038-11-120** GCF120 dressing wheel**34038-11-220** GCF220 dressing wheel**34038-11-350** GCF350 dressing wheel

It can draw in motor rotary to dress a plane of diamond wheel on grinding machine

**MR200 FIG. 1****MR300 FIG. 2**

Unit:mm
