

34080**SUPER POWERFUL ELECTROMAGNETIC CHUCK****APPLI CATION :**

Suitable for heavy cutting with milling machine, shaper, planer, etc.

FEATURES :

Specially designed for heavy cutting. The gap between magnetic poles is enlarged and magnetic forced is super powerful. Excellent for powerful attraction of the work piece with thickness of 15mm or thicker and size in 100x100mm or larger.

- Drag magnetic force, average 18 kgf magnetic attraction

Unit:mm
